

SDWAN Router / VPN

The NF-10 G is a revolutionary and cost-effective way of securing and interconnecting anch offices to data centers and head quarters with 100% uptime

NF-10 G frees you fom the tedium of choosing from the myriad and confusing option that a UTM vendor presents before you . it frees you from the tyanny of continuing paymnets for signatures updates and maintenance , without really finding out wheather it actually pay you back

when all you wanted was your branch offices to be potected and connectivity to be seamless, why pay for what you don't need? which is why we call NF-10 G to be Fresh approach to enterprise networking?

- Forgot UTMs!
- Think 100% connectivity!
- Think business productivity!
- Think application productivity!
- Reduce costs!

Specifications

Performance Parameters	NF-10 G	
SSL Clients (2 Clients)	Yes	
IPSec Clients (5 Clients)	Yes	
Softether VPN Client	Yes	
USB Dongle support	PPP / USB Tethering	
WAN Configuration (2 WAN Ports)	PPPoE / Static IP / DHCP	
Wireless (2.4G & 5.8G)	Integrated wireless 802.11 b/g/n/ac	
Content Filtering	Yes	
Domain Filtering	Yes	
Dynamic DNS	DynDNS, No-IP, CustomDNS, freeDNS	
Wireless Security	WEP, WPA & WPA2	
Quality of Serivce(QoS)	Yes	
DHCP	Server, Client, DHCP Client List	
Port Forwarding	Yes	
VPN Passthrough	PPTP, L2TP, IPSec	
IP/Mac based filter rule*	Yes	
Hardware Specification		
Ethernet Ports (5 Gigabit Ports)	2 x WAN & 3 x LAN	
4G LTE Dongle Support	Yes	
Antenna	2	
USB Port	1x USB Port	
Form Factor	Desktop	
Dimensions (mm) - (HxWxD)	30x124x160	
Weight (Kg)	0.5	
Color	Black	
Power Supply (Indian type power adapter)	12V/5A	
Input Voltage	100-240V/50-60Hz	
Regulatory Compliance	CE, FCC, RoHS	

Features

- Network Failover
- · Load Balance with Policy routes
- Multi-ISP configuration
- Subnet Load Balancer
- 3G/4G Dongle support
- Built-in statefull firewall
- Multi-cast support
- Built-in SSL VPN/IPSec clients
- On-demand VPN
- Domain Filter
- Intergrated wireless access point
- Secure key based remote access
- SDWAN Plugin
- Dos | DDos | Syn Flood block
- ZTP (Zero Touch Provisioning)

Note:

- 1. Bandwidth Aggregation and auto failover between Wired and Wireless WAN links.
- 2. Auto SSL VPN Client Failover and load balancing
- 3. Upto 5 IPSec client support with IKE2 support

1.Maximum throughput performance is measured under ideal test conditions using industry standard performance test tools. 2. Firewall UDP throughput performance is based on RFC 2544 guidelines. 3. All Performance values are upto or rough guideline only and vary depending on system configuration. 3.MPPS rate is calculated based on 1G throughput numbers in standard test conditions it supports 98.8 MPPS. 4. IPSec throughput of 80 Mbps and SSL throughput of 90 Mbps
