

NF Q 900 Series

Modern Day Next-Gen Firewall for Every Office

New
Model

- In today's world, Cyber threats are same for all types of modern business. Hence, the firewall used in SOHO, SME & Corporate segments should also support features like enterprise class firewall to protect the network and need to be available at an affordable price. Q series meets the above requirement with excellent ROI coupled with world class features.
- It includes built-in AAA User Management and hotspot functionalities for both wired and wireless users, ensuring secure internet access for guests.
- With its Drop-in Placement (DIP) feature, the Q Series allows seamless failover between MPLS and SSL VPN over ADSL connections, without changing the existing network.
- Equipped with a lifetime-free analyzer, the Q Series NGFW offers a user-friendly, AI-powered experience, making it more than just a firewall.
- Compact, fanless, reliable, and energy-efficient, the Q Series NGFW can be easily placed in any office without special setup.
